

Now Hiring

Priority Air Charter was launched in 1997 with two Cessna 208B Grand Caravans as a 135 on demand charter operator. Today we operate three Caravans and three Pilatus PC-12's throughout the USA, Canada and Mexico. Most of our flying is single pilot. Our aircraft are equipped with Garmin navigation and communication technology, including uplink satellite weather data. Priority's professional dispatch, flight and maintenance teams, and two aircraft types, take economy, speed and customer satisfaction to the next level in the private air charter industry! Our business philosophy of, "We'll do what we say and do it well," and competitive prices, have led to many shippers preferring Priority to other carriers.

Priority Air Charter, LLC is currently interviewing for multiple pilot positions. We are based in Kidron Ohio in the heart of Amish country with reasonable cost of living.
